

TRAIN WRECKED; SEVEN CARS BURN

WABASH TANK CAR TRUCKS DE-RAILED, CAUSING FIRE.

TIES UP TRAFFIC TODAY

Accident on No. 71 Tears Up Track, Cuts Off Telegraph Service—Friction Caused Flames, Belief.

Seven cars of the Wabash west-bound local freight train No. 71 were burned at 10:30 o'clock this morning two and one-half miles west of Maryville, when the rear truck of one of two oil tank cars left the rails while crossing a trestle, and left the road-bed 150 feet further west. Two rear box cars and the caboose were saved from burning when trainmen and passengers on the caboose shoved them back to the trestle, while a string of about 20 cars were cut loose from the burning cars and pulled on to Wilcox by the engine.

As far as can be learned from trainmen and passengers three cars back of the rear tank car, two tank cars filled with gasoline or oil and two box cars ahead of the front tank car were burned. One at the rear contained a shipment of poultry from here, a \$350 Schumann piano from the London Music company, destined to Miss Bertha Graves, Burlington Junction, and several minor freight packages from this city. All that was saved by the trainmen and passengers from this car was a can of sorghum, two rolls of wall paper and two cartons of notions. A fine bull shipped from Conception Junction also burned.

Friction Caused Fire, Belief. The first indication that something was wrong was while the caboose was on the trestle. The train bumped across the bridge. After going about 150 feet farther the train came to a sudden stop. When those in the caboose alighted the rear oil tank was already in flames.

It had in the meantime rolled down a small embankment to the left of the train, about parallel to the rear box car, which burned. What caused the fire cannot be learned by trainmen or witnesses to the accident, but the general opinion prevailed that friction of the tank car trucks on the rails caused sparks which ignited leaking oil from the tank cars.

Cut Some Ties in Two. The ties at the west end of the trestle and all the way to where the tank car left the track entirely were badly cut by the wheel flanges, and in some places cut entirely through. One box car also left the track entirely and rolled sideways across the right of way.

The train was in charge of Conductor Clarence Smith of Stanberry. After taking on freight here it left at 10:15 o'clock. Local Agent Ed Ferritor reports. The tank cars were together and about two-thirds back from the engine, and five cars from the caboose.

When the flames from the burning cars, merchandise and gasoline had reached their height it made a dense smoke which obliterated all sight of the cars and made a flame which shot into the sky between twenty-five and thirty feet at times. Either the intense heat melted the telegraph wires, causing them to drop, or the poles were burned, for service was cut off completely from here to the west.

Meet Train No. 12 at Wilcox. Passenger train No. 12, eastbound, due here at 10:52 o'clock this morning, was stopped at Wilcox, where passengers for Maryville were taken in charge by local cabs and busses. It is not believed the track can be placed in condition for traffic before late this afternoon or tonight.

Among those who were passengers from Maryville on the freight were John Aley, S. L. Beech, D. N. Scott, and Robert Moss of St. Louis, who has been here for the Prudential Insurance company.

The train ran about 200 feet after the truck left the track, on account of the inability of the engineer to get the air brakes to work. It was caused, it is believed, by the hose becoming disconnected through the tank car twisting.

EVANGELIST CONVERTS 501. Preacher and Singer Will Arrive From Salt Lake Saturday.

The Rev. Gilbert S. Cox, pastor of the First Methodist church, is in receipt of a letter today from Thurston B. Price, evangelist, who will arrive in the city Saturday night from Salt Lake City, to conduct revival services at the church in this city, that the meeting just closed resulted in 501 conversions.

The closing night of the services at the Salt Lake church seventy-five converts were received. The meeting was one of the most unusual ever held in the city. The Rev. E. N. Guice, choir director, who will come to Maryville with Mr. Price, has been at Salt Lake with him during the meeting just concluded.

MAY ADD SPEAKING

IMPROVE NEXT HIGH SCHOOLS CONTEST THE PLAN.

PROGRAM SAME LENGTH

Addition of Extemporaneous Debates Would Not Prolong Contest, But Would Lessen Declarations.

The seventh annual inter-high school contests of the Maryville Normal district, to be held here in the spring of 1916, will be better than ever if plans now under way by a special committee are adopted by the general executive committee at its meeting here Saturday morning, April 24. The plan is to increase the attractions by adding public speaking or extemporaneous debating.

Part of this special auxiliary committee—F. C. Tontou, St. Joseph, president; W. M. Westbrook, treasurer, and Prof. H. P. Swinehart, corresponding secretary of the Northwest Missouri Inter-High School association, which gives these annual events—witnessed the public speaking contest of the St. Joseph Central high school yesterday, and came away well satisfied with the idea.

Would Incorporate It Here. So now they are intending to incorporate that feature in the annual contests here after this year. The committee, which also includes A. A. Ross of Platte City and George H. Beasley of Liberty, will probably draw up such a recommendation, according to Treasurer Westbrook, at a special meeting here Friday, April 23. They would present it the following day to the executive committee for consideration.

Even with this additional feature the night program would be no longer, according to plans of the committee. This would remove, thereby, the one big opposition to adding anything further to the meetings. The committee-men's plan is to take less time for the boys' and the girls' declamations. Make Declarations Fewer.

This can be accomplished, Prof. Westbrook and Prof. Swinehart explained by eliminating all but four instead of five boys or girls in the preliminary afternoon preceding the literary contests, thereby cutting out about twenty minutes time. This could be filled in by the public speaking of extemporaneous debating, so that the program would be the same length as it will be this year or years past, yet add another feature to the annual high school contests.

IS FOUND DEAD IN BED.

John Lamar, 88, Pioneer Resident of Elmo, Succumbs This Morning. John Lamar, 88 years old, was found dead in his bed at 9 o'clock this morning at the home of his son, Charles Lamar, of Elmo.

Mr. Lamar had been dead several hours when found by the members of the family. While his general health had been good, Mr. Lamar had been very feeble for some time. Yesterday he was not feeling as well as usual, and when the others of the family arose this morning they did not awaken him. About 9 o'clock his son, Charles, went to his father's room and found the aged man had passed away. Death was due to general senility.

Mr. Lamar was one of the pioneer settlers of Elmo. He came there when a young man and settled on a farm, where he made his home for many years. After the death of his wife, a few years ago, he made his home with his son.

No arrangements have yet been made for the funeral, or will be until word is received from out-of-town relatives.

Mr. Lamar is survived by three children. They are Charles and William A. Lamar of Elmo and Mrs. Henrietta Scott of Kahota, Col. He is also survived by a cousin, N. E. Lamar, and four nieces, Mrs. V. W. Keene, Mrs. L. P. Colvin, Mrs. Lee Carpenter and Mrs. Wellington Dusenberry, all of whom are residents of Maryville.

Attends Debate at Cameron. Prof. Bert Cooper, county school superintendent, returned last night from Cameron where he attended the annual debate between the debating teams of the Missouri Wesleyan College at Cameron and of Tarkio College at Tarkio. The debate this year was, "Resolved, that the government should own and operate public telephones."

Leaves for Illinois. Miss Anna Blatter will leave tomorrow morning for New Berlin, Ill., to visit at the home of her uncle, Addison Hodgerson.

100 TO ST. JOSEPH CHURCH

Baptist Party Greets Pastor in Revival Service There—Some Attend Musicals.

A party of about one hundred persons from the First Baptist church attended the service at the Patee Park Baptist church in St. Joseph, where the Rev. L. M. Hale, pastor of the Maryville church, is conducting revival services. The party was met at the station by Mr. Hale and a committee of about 200 men welcomed them at the church, and after singing "Old Time Religion," went to the basement of the church, where a banquet was served for the Maryville visitors.

Addresses were made at the banquet by the Rev. R. L. Finch, pastor of the Christian church of this city, who went with the party, and Mayor U. S. Wright. Mayor Wright lauded the good work of Mr. Hale in Maryville. Short talks were made from a few from the St. Joseph church, praising the loyalty of the members of the Maryville church to their pastor and for their interest in the advancement of the cause.

After the banquet the party attended the services, and Mr. Hale's sermon was directed especially to men. He spoke feelingly of his gratitude to his members for making the trip.

Mr. Hale has been conducting a great meeting in St. Joseph and has awakened an interest in church affairs. So far thirty-seven have joined the church during the meeting. Mr. Hale will close the meetings Saturday and will return home for Sunday services at his church.

Large banners running the entire length of the car were on each side of the rear coach on the train going down, with the inscription "Gospel Team First Baptist Church, Maryville, Mo." Many songs were given during the trip.

The special train left St. Joseph at 11:30 o'clock, arriving here at 1:30 this morning. It consisted of three cars.

The members of the St. Joseph church will visit the Maryville church some time during the summer months. A number who made the trip took in the Madame Schumann-Heink concert at the Auditorium.

'BIG' JURY INDICTS HIM

Farmer Released on \$600 Bond—Try Complicated Note Suit, in Which Infant Figured.

Call Stark, who lives southeast of Maryville, was arraigned in circuit court late yesterday afternoon on a charge of operating a motor vehicle while intoxicated, following an indictment returned against him last week by a grand jury. He came into court voluntarily on order by Sheriff Edwin Wallace.

Stark pleaded not guilty. His release bond was fixed at \$600 pending his trial in circuit court here in September. S. H. Kemp was bondsman for Stark. Stark is alleged to have driven an automobile through the business streets of Maryville about a week ago, according to Sheriff Wallace, while intoxicated. While he caused no injury nor accident in so doing it is said, the car was driven recklessly. Stark is a young farmer.

William Alexander of Burlington Junction, arrested today on an indictment returned by the grand jury last week, was arraigned in circuit court this morning on a charge of gaming. He pleaded not guilty and his bond fixed at \$200, pending his trial next September.

Try Complicated Note Suit.

The suit of Mary J. Scott against John T. Griffey for collection of a promissory note for \$2,000, given April 3, 1913 to Jessie Scott Griffey, was begun in circuit court at 10:30 o'clock this morning before a jury, following the completion of the state case against John Ecker.

Mrs. Scott claims the note was later given to her by Mrs. Jessie S. Griffey at her death. A motion made this morning prior to the trial of the case to include the administrators of the Mrs. Griffey estate—the Gilling-Jackson Loan and Trust Company, and the deceased's one-year-old child, Jessie Scott Griffey—as defendants of the suit, in order to determine their interests in the matter. The motion was made by the defendant's attorneys but was overruled by Judge W. C. Ellison.

Those being examined today by the inquisitors are "Tuby" Brownfield, Dick Ware and Harry Houston, Burlington Junction; Mr. Klepping, Conception Junction, and Orville Hulsa, Roland Pruitt and "Ad" Owens of Elmo.

Sommellera of the auxiliary cruiser Etzenada, which reached port late yesterday from Magdalena via Turtle bay.

Warships of the allied fleet in the Pacific have been using Magdalena bay as a base for a number of months, said Captain Sommellera, according to natives. At times there have been a whole fleet of foreign warships and auxiliary vessels at anchor in the bay, most of them British and Japanese. The warships were all stripped for action and looked as if they had been steaming for a long voyage.

lamation by Mayor U. S. Wright, issued this morning and calling upon all citizens to aid in the movement. Mayor Wright has been one of the leaders in the enterprise from the start, both personally and in an official capacity, and has promised that the city street department will take care of and remove, April 29, all rubbish gathered on or before that day.

All civic clubs, women's organizations and the schools and church societies also are lending aid to the move and doing much to accomplish the end desired. Maryville is generally kept pretty clean and sanitary. But two weeks hence it will be so "spic and span," the leaders say, that former residents will hardly recognize their old home town, and visitors to the annual inter-high school contests here April 23 and 24 will pay many compliments to Maryville.

The Best Women's Suits You Ever Saw at moderate prices—Wooltex, of course

BY special co-operation with the manufacturers of Wooltex tailored garments we have been able to assemble this remarkable collection. The models are wonderfully handsome, and in great variety. The materials are the popular gabardines, serges, poplins, coverts and checks.

The illustration shows just four of the many superb designs.

When you consider that every material is absolutely all wool; that every fabric has been selected because of its superior qualities, and its correctness of style—

When you examine the linings of the garments and realize that every piece of silk is *pure silk*—

When you see how beautifully the garments are made, and are shown with what care and thoroughness every seam is run, and every vital point of tailoring is executed—

When you try on the garments and see how they conform to the figure, and how soft and elegant they feel—

When you realize the beautiful lines are not bolstered up by stiff canvas, but are tailored into a form which will retain its shapeliness during the life of the garment—

You will be amazed that garments of such elegance, refinement and general superiority can be bought for such reasonable prices as are marked on them.

finished with tabs that button down on the jacket; slightly diagonal front. New circular skirt, with partial over-yoke, trimmed with buttons like the jacket.

The second figure, No. 1710, illustrates a suit adapted from a recent Doucet model. A charming effect is produced by the slash at each side of the coat, finished with buttons and buttonholes. The partial belt from side to side across the back holds in the fulness. Officer's collar overlaid with detachable washable collar.

No. 1711 is a charming suit in youthful effect with a panel back, which extends below the line of the coat at sides and in front. The partial belt around the back and sides ends at the panel in front. The skirt flares moderately below the yoke. The materials are serge, box poplin, and black and white checks.

Suit No. 1720 at the right is in a smart Polo effect, well cut on plain lines, with moderate fulness; finished with smart pockets on both jacket and skirt. Made in checks, poplin and covert cloth.

Many other Wooltex models at \$25.00 to \$30.00 combine variety and excellence that are absolutely unequalled in this city. But you must see them personally to appreciate fully their extraordinary value.

When may we have the pleasure of showing them to you?

TRAIN WRECKED; SEVEN CARS BURN

WABASH TANK CAR TRUCKS DERAILLED, CAUSING FIRE.

TIES UP TRAFFIC TODAY

Accident on No. 71 Tears Up Track, Cuts Off Telegraph Service—Friction Caused Flames, Belief.

Seven cars of the Wabash west-bound local freight train No. 71 were burned at 10:30 o'clock this morning two and one-half miles west of Maryville, when the rear truck of one of two oil tank cars left the rails while crossing a trestle, and left the road-bed 150 feet further west. Two rear box cars and the caboose were saved from burning when trainmen and passengers on the caboose shoved them back to the trestle, while a string of about 20 cars were cut loose from the burning cars and pulled on to Wilcox by the engine.

As far as can be learned from trainmen and passengers three cars back of the rear tank car, two tank cars filled with gasoline or oil and two box cars ahead of the front tank car were burned. One at the rear contained a shipment of poultry from here, a \$350 Schumann piano from the Landon Music company, destined to Miss Bertha Graves, Burlington Junction, and several minor freight packages from this city. All that was saved by the trainmen and passengers from this car were a can of sorghum, two rolls of wall paper and two cartons of notions. A fine bull shipped from Conception Junction also burned.

Friction Caused Fire, Belief. The first indication that something was wrong was while the caboose was on the trestle. The train bumped across the bridge. After going about 150 feet farther the train came to a sudden stop. When those in the caboose alighted the rear oil tank was already in flames.

It had in the meantime rolled down a small embankment to the left of the train, about parallel to the rear box car, which burned. What caused the fire cannot be learned by trainmen or witnesses to the accident, but the general opinion prevailed that friction of the tank car trucks on the rails caused sparks which ignited leaking oil from the tank cars.

Cut Some Ties in Two. The ties at the west end of the trestle and all the way to where the tank car left the track entirely were badly cut by the wheel flanges, and in some places cut entirely through. One box car also left the track entirely and rolled sideways across the right of way.

The train was in charge of Conductor Clarence Smith of Stanberry. After taking on freight here it left at 10:15 o'clock, Local Agent Ed Ferritor reports. The tank cars were together and about two-thirds back from the engine, and five cars from the caboose.

When the flames from the burning cars, merchandise and gasoline had reached their height it made a dense smoke which obliterated all sight of the cars and made a flame which shot into the sky between twenty-five and thirty feet at times. Either the intense heat melted the telegraph wires, causing them to drop, or the poles were burned, for service was cut off completely from here to the west.

Meet Train No. 12 at Wilcox. Passenger train No. 12, eastbound, due here at 10:52 o'clock this morning, was stopped at Wilcox, where passengers for Maryville were taken in charge by local cabs and busses. It is not believed the track can be placed in condition for traffic before late this afternoon or tonight.

Among those who were passengers from Maryville on the freight were John Aley, S. L. Beech, D. N. Scott, and Robert Moss of St. Louis, who has been here for the Prudential Insurance company.

The train ran about 200 feet after the truck left the track, on account of the inability of the engineer to get the air brakes to work. It was caused, it is believed, by the hose becoming disconnected through the tank car twisting.

EVANGELIST CONVERTS 501. Preacher and Singer Will Arrive From Salt Lake Saturday.

The Rev. Gilbert S. Cox, pastor of the First Methodist church, is in receipt of a letter today from Thurston B. Price, evangelist, who will arrive in the city Saturday night from Salt Lake City, to conduct revival services at the church in this city, that the meeting just closed resulted in 501 conversions.

The closing night of the services at the Salt Lake church seventy-five converts were received. The meeting was one of the most unusual ever held in the city. The Rev. E. N. Guice, choir director, who will come to Maryville with Mr. Price, has been at Salt Lake with him during the meeting just concluded.

MAY ADD SPEAKING

IMPROVE NEXT HIGH SCHOOLS CONTEST THE PLAN.

PROGRAM SAME LENGTH

Addition of Extemporaneous Debates Would Not Prolong Contest, But Would Lessen Declarations.

The seventh annual inter-high school contests of the Maryville Normal district, to be held here in the spring of 1916, will be better than ever if plans now under way by a special committee are adopted by the general executive committee at its meeting here Saturday morning, April 24. The plan is to increase the attractions by adding public speaking or extemporaneous debating.

Part of this special auxiliary committee—F. C. Touton, St. Joseph, president; W. M. Westbrook, treasurer, and Prof. H. P. Swinehart, corresponding secretary of the Northwest Missouri Inter-High School association, which gives these annual events—witnessed the public speaking contest of the St. Joseph Central high school yesterday, and came away well satisfied with the idea.

Would Incorporate It Here. So now they are intending to incorporate that feature in the annual contests here after this year. The committee, which also includes A. A. Ross of Platte City and George H. Beasley of Liberty, will probably draw up such a recommendation, according to Treasurer Westbrook, at a special meeting here Friday, April 23. They would present it the following day to the executive committee for consideration.

Even with this additional feature the night program would be no longer, according to plans of the committee. This would remove, thereby, the one big objection to adding anything further to the meetings. The committee's plan is to take less time for the boys' and the girls' declarations.

Make Declarations Fewer. This can be accomplished, Prof. Westbrook and Prof. Swinehart explained by eliminating all but four instead of five boys or girls in the preliminary the afternoon preceding the literary contests, thereby cutting out about twenty minutes time. This could be filled in by the public speaking or extemporaneous debating, so that the program would be the same length as it will be this year or years past, yet add another feature to the annual high school contests.

IS FOUND DEAD IN BED.

John Lamar, 88, Pioneer Resident of Elmo, Succumbs This Morning. John Lamar, 88 years old, was found dead in his bed at 9 o'clock this morning at the home of his son, Charles Lamar, of Elmo.

Mr. Lamar had been dead several hours when found by the members of the family. While his general health had been good, Mr. Lamar had been very feeble for some time. Yesterday he was not feeling as well as usual, and when the others of the family arose this morning they did not awaken him. About 9 o'clock his son, Charles, went to his father's room and found the aged man had passed away. Death was due to general senility.

Mr. Lamar was one of the pioneer settlers of Elmo. He came there when a young man and settled on a farm, where he made his home for many years. After the death of his wife, a few years ago, he made his home with his son.

No arrangements have yet been made for the funeral, or will be until word is received from out-of-town relatives.

Mr. Lamar is survived by three children. They are Charles and William A. Lamar of Elmo and Mrs. Henrietta Scott of Kahota, Col. He is also survived by a cousin, N. E. Lamar, and four nieces, Mrs. V. W. Keene, Mrs. L. P. Colvin, Mrs. Lee Carpenter and Mrs. Wellington Dusenberry, all of whom are residents of Maryville.

Attends Debate at Cameron. Prof. Bert Cooper, county school superintendent, returned last night from Cameron where he attended the annual debate between the debating teams of the Missouri Wesleyan College at Cameron and of Tarkio College at Tarkio. The debate this year was, "Resolved, that the government should own and operate public telephones."

Leaves for Illinois. Miss Anna Blatter will leave tomorrow morning for New Berlin, Ill., to visit at the home of her uncle, Addison Hodgerson.

100 TO ST. JOSEPH CHURCH

Baptist Party Greets Pastor in Revival Service There—Some Attend Musicals.

A party of about one hundred persons from the First Baptist church attended the service at the Patee Park Baptist church in St. Joseph, where the Rev. L. M. Hale, pastor of the Maryville church, is conducting revival services. The party was met at the station by Mr. Hale and a committee of about 200 men welcomed them at the church, and after singing "Old Time Religion," went to the basement of the church, where a banquet was served for the Maryville visitors.

Addresses were made at the banquet by the Rev. R. L. Finch, pastor of the Christian church of this city, who went with the party, and Mayor U. S. Wright. Mayor Wright lauded the good work of Mr. Hale in Maryville. Short talks were made from a few from the St. Joseph church, praising the loyalty of the members of the Maryville church to their pastor and for their interest in the advancement of the cause.

After the banquet the party attended the services, and Mr. Hale's sermon was directed especially to men. He spoke feelingly of his gratitude to his members for making the trip.

Mr. Hale has been conducting a great meeting in St. Joseph and has awakened an interest in church affairs. So far thirty-seven have joined the church during the meeting. Mr. Hale will close the meetings Saturday and will return home for Sunday services at his church.

Large banners running the entire length of the car were on each side of the rear coach on the train going down, with the inscription "Gospel Team First Baptist Church, Maryville, Mo." Many songs were given during the trip.

The special train left St. Joseph at 11:30 o'clock, arriving here at 1:30 this morning. It consisted of three cars.

The members of the St. Joseph church will visit the Maryville church some time during the summer months. A number who made the trip took in the Madame Schumann-Heink concert at the Auditorium.

Farmer Released on \$600 Bond—Try Complicated Note Suit, in Which Infant Figured.

Cail Stark, who lives southeast of Maryville, was arraigned in circuit court late yesterday afternoon on a charge of operating a motor vehicle while intoxicated, following an indictment returned against him last week by a grand jury. He came into court voluntarily on order by Sheriff Edwin Wallace.

Stark pleaded not guilty. His release bond was fixed at \$600 pending his trial in circuit court here in September. S. H. Kemp was bondsman for Stark. Stark is alleged to have driven an automobile through the business streets of Maryville about a week ago, according to Sheriff Wallace, while intoxicated. While he caused no injury nor accident in so doing it is said, the car was driven recklessly. Stark is a young farmer.

William Alexander of Burlington Junction, arrested today on an indictment returned by the grand jury last week, was arraigned in circuit court this morning on a charge of gaming. He pleaded not guilty and his bond fixed at \$200, pending his trial next September.

Try Complicated Note Suit.

The suit of Mary J. Scott against John T. Griffey for collection of a promissory note for \$2,000, given April 3, 1913 to Jessie Scott Griffey, was begun in circuit court at 10:30 o'clock this morning before a jury, following the completion of the state case against John Ecker.

Mrs. Scott claims the note was later given to her by Mrs. Jessie S. Griffey at her death. A motion made this morning prior to the trial of the case to include the administrators of the Mrs. Griffey estate—the Gilling-Jackson Loan and Trust Company, and the deceased's one-year-old child, Jessie Scott Griffey—as defendants of the suit, in order to determine their interests in the matter. The motion was made by the defendant's attorneys but was overruled by Judge W. C. Ellison.

While the grand jury inquisition begun last week was an annual affair, it was particularly desired to inquire into gaming complaints from over the county.

Those being examined today by the inquisitors are "Toby" Brownfield, Dick Ware and Harry Houston, Burlington Junction; Mr. Klepping, Conception Junction, and Orville Huls. Roland Pruitt and "Ad" Owens of Elmo.

ALLIES USE MEXICAN BAY?

Naval Officer Says Magdalena is Supply Base of Hostile Fleet. By American Press.

San Diego, Calif., April 13.—Verification of reports that British, Japanese and Australian warships and auxiliaries were using Magdalena bay, Lower California, as a coal and supply base was made here today by Captain A. Somellera of the auxiliary cruiser Etzenada, which reached port late yesterday from Magdalena via Turtle bay.

Warships of the allied fleet in the Pacific have been using Magdalena bay as a base for a number of months, said Captain Somellera, according to natives. At times there have been a whole fleet of foreign warships and auxiliary vessels at anchor in the bay, most of them British and Japanese.

The warships were all stripped for action and looked as if they had been steaming for a long voyage.

PROCLAMATION.

The city of Maryville, acting together with the Maryville Commercial club, the schools, and the Women's City Federation, has designated Tuesday, April 20, 1915, as "Clean-Up and Paint-Up Day" for Maryville.

During this week every citizen of Maryville should make an effort to clean up his house and property so as to avoid fire risk, to clean up his front and back yard, to paint his premises if necessary, to abolish all places that might breed flies and mosquitoes, to eliminate dandelions and weeds, and to help clean up vacant lots.

Citizens should place their rubbish in the street or in the alley, in neat piles or preferably in some kind of receptacle—a box, can or bag. The street department is putting on extra men and teams and will collect all such. If collection is not immediately made, citizens should telephone the mayor's office, Hanamo 326 or Mutual 171, and it will be given immediate attention. If all refuse is placed in such a manner so that it can be easily loaded and carted away, Maryville will be readily cleaned.

This is an opportunity for every citizen not only to show his personal pride, but also his civic pride. Maryville is known as the city of homes, and we should all endeavor to make it such. No city is attractive if it is dirty and littered up. All should be willing to co-operate in cleaning up not only their own premises, but in helping to clean up the premises of others where help is necessary.

Let us all work together to clean up and paint up Maryville during the next week, and then keep it that way throughout the entire year and for many years to come. Let us plant grass and flowers. Let us make Maryville not only clean, but beautiful. The result will be a cleaner, healthier, happier and more attractive city.

U. S. WRIGHT, Mayor.
April 13, 1915.

Maryville's first united clean-up, paint-up movement, planned for April 20, though every day should be a "clean-up, paint-up day," has now received the added importance of a proclamation. (Continued on page 2.)

Every newspaper man and the public generally will regret to learn of the death of William R. Nelson, editor and publisher of the Kansas City Star and Times. Col. Nelson was an aggressive enterprising publisher and built up in Kansas City one of the greatest newspapers in the United States, a newspaper that has done much for the development and improvement of Kansas City. Many of us have not been able frequently to agree with the editorial policies of the Star but its general tone has been clean and wholesome and it has exerted a tremendous influence over the section of country in which it circulated.

MAYOR ISSUE A CLEAN-UP EDICT

(Continued from page 1.)
Illumination by Mayor U. S. Wright, issued this morning and calling upon all citizens to aid in the movement. Mayor Wright has been one of the leaders in the enterprise from the start, both personally and in an official capacity, and has promised that the city street department will take care of and remove, April 20, all rubbish gathered on or before that day.

All civic clubs, women's organizations and the schools and church societies also are lending aid to the move and doing much to accomplish the end desired. Maryville is generally kept pretty clean and sanitary. But two weeks hence it will be so "spic and span," the leaders say, that former residents will hardly recognize their old home town, and visitors to the annual inter-high school contests here April 23 and 24 will pay many compliments to Maryville.

MRS. TRULLINGER IS WELL AND HAPPY

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid.

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

Grocery and Meat Market

The Best Women's Suits You Ever Saw at moderate prices—Wooltex, of course

By special co-operation with the manufacturers of Wooltex tailored garments we have been able to assemble this remarkable collection. The models are wonderfully handsome, and in great variety. The materials are the popular gabardines, serges, poplins, coverts and checks.

The illustration shows just four of the many superb designs.

When you consider that every material is absolutely all wool; that every fabric has been selected because of its superior qualities, and its correctness of style—

When you examine the linings of the garments and realize that every piece of silk is pure silk—

When you see how beautifully the garments are made, and are shown with what care and thoroughness every seam is run, and every vital point of tailoring is executed—

When you try on the garments and see how they conform to the figure, and how soft and elegant they feel—

When you realize the beautiful lines are not bolstered up by stiff canvas, but are tailored into a form which will retain its shapeliness during the life of the garment—

You will be amazed that garments of such elegance, refinement and general superiority can be bought for such reasonable prices as are marked on them.

Descriptions of the Suits Illustrated

The suit at the left of the picture, No. 1709, is adapted from a Paquin model. The effective pocket flaps are set on diagonally and outlined by closely-set buttons. The rolling collar is

finished with tabs that button down on the jacket; slightly diagonal front. New circular skirt, with partial over-yoke, trimmed with buttons like the jacket.

The second figure, No. 1710, illustrates a suit adapted from a recent Doucet model. A charming effect is produced by the slash at each side of the coat, finished with buttons and buttonholes. The partial belt from side to side across the back holds in the fulness. Officer's collar overlaid with detachable washable collar.

No. 1711 is a charming suit in youthful effect with a panel back, which extends below the line of the coat at sides and in front. The partial belt around the back and sides ends at the panel in front. The skirt flares moderately below the yoke. The materials are serge, box poplin, and black and white checks.

Suit No. 1720 at the right is in a smart Polo effect, well cut on plain lines, with moderate fulness; finished with smart pockets on both jacket and skirt. Made in checks, poplin and covert cloth.

Many other Wooltex models at \$25.00 to \$30.00 combine variety and excellence that are absolutely unequalled in this city. But you must see them personally to appreciate fully their extraordinary value.

When may we have the pleasure of showing them to you?
